# CAPABILITIES ENABLED

## Tableau Site Roles

### VIEWER

#### Can see published and custom views created by others

Can use most interaction features, such as subscribing to views, downloading as images, and downloading summary data. Cannot connect to data; create, edit, or publish content; or set data alerts.

### EXPLORER

#### Browse and interact with published views.

Can subscribe to content, create data driven alerts, connect to Tableau published data sources and open workbooks in the web authoring environment for ad-hoc queries, but it cannot save work.

### EXPLORER (CAN PUBLISH)

#### Publish workbooks from the web using existing data sources

Can use all interaction features, and save new standalone data sources from embedded workbook connections. In the web editing environment, can edit and save existing workbooks. Cannot save new standalone data sources or connect to external data and create new data sources.

### CREATOR

#### Access to site content

Can connect to Tableau published data sources to create new workbooks and edit and save existing workbooks.

**Data Stewards have final approval on all site role permissions.**
