

PGY1 PHARMACY RESIDENCY PROGRAM

AMBULATORY CARE FOCUS

McLeod Health

The Choice for Medical Excellence

College of Pharmacy
UNIVERSITY OF SOUTH CAROLINA

About Us

The **McLeod Regional Medical Center (MRMC)** is the flagship hospital for a seven-hospital system serving patients across Florence county and surrounding areas, from the PeeDee region extending to the coast. With more than 150 employees, MRMC Pharmacy Services operates 24 hours a day and the Outpatient Pharmacy is open 7 days a week. Use of a decentralized pharmacy model facilitates close collaboration with physicians and other health care professionals, emphasizing the concept of pharmaceutical care.

The **University of South Carolina College of Pharmacy** is located in the heart of USC's Columbia campus, one block from the student union, university library and historic Horseshoe. Our partnership allows residents to experience teaching, precepting, research and mentoring as a means of giving back to the profession.

About Florence, SC

A contemporary Southern belle of a city, Florence offers a wonderful array of entertainment, outdoor recreational activities, and local cuisine. This burgeoning hub of shopping, recreation, arts and entertainment has plenty of appeal and a flavor that hits all the sweet spots of both small-town and big city living.

Residents have the best of both worlds as they are tucked between the beaches, the mountains, and nearby lakes. With a history spanning both the Revolutionary and Civil Wars, the Pee Dee region has plenty to offer visitors.
